Caballero Recordings, based in Stuttgart (Germany) started with the first release in 2004. It was Guimaras - "Besame" - a saxophone driven, Spanish influenced tribal-house tune. Artists like Christian Hornbostel, Esteban Garcia or Dub Deluxe shaped the typical tribal sound of the first releases. But as stagnation is regression, the sound of Caballero developed through the years and was always close to the up-to-date house sounds of the international club culture - keeping an eye on new trends and talents but never forgetting the roots of house music. Artists like Thomas Gold, Kid Massive, Chris Montana or Big World found a homebase on Caballero and started their way to an international career. The biggest commercial success followed last year with the release of "Move Your Body" by The Grower feat. Corey Andrew. The remake of the Marshall Jefferson classic included a massive remix by Jesse Garcia and was supported by all the global players like Roger Sanchez, Erick Morillo, Pete Tong, Axwell or Stonebridge. It directly went to No. 2 of the Beatport Top-100 charts and was licensed for numerous compilations worldwide - the international breakthrough was done... But no time to rest, a lot of high quality releases followed and will follow and artists like Bush II Bush, Jesse Garcia, Bingo Players, Juan Kidd and Felix Baumgartner, Chris Kaeser, Gadjo, Belocca, Ruben Alvarez, Gold Ryan and Tapes, Peter Brown and lots more are now part of the release schedule. Caballero Club Session is the first CD compilation of the label, featuring some of the biggest house anthems of the moments, ranging from deep-to uplifting- to progressive house! It was mixed by label head-honcho Sebastian Gnewkow together with Norm, who was responsible for a lot of successful releases and remixes in the Caballero history. Productions and remixes of the worlds most important house artists are included - like Faithless, Roger Sanchez, Chris Lake, Mark Knight, John Dahlback, TV Rock, Moguai, ATFC, D.O.N.S., Bingo Players, Jesse Garcia, Jimpster, David Penn, Milton Jackson, Manuel Tur, Gorge, Ian Carey, Syke and Sugarstarr, Stimming and many more... It's all about house music...nothing more...nothing less!
