The Hype

This album marks the fourteenth release in Cr2's ever-popular LIVE & DIRECT compilation series, and a special treat for fans of pure, unadulterated House Music. A clash of two world class DJ acts, who have been taking some time off from their affronted alias', make a hugely anticipated return from opposite sides of the Atlantic to present us with this specially selected aural treat.

MYNC are back from their short time off and ready to launch a brand new compilation. They've had huge success throughout the summer of 2009 mixing the official Space Ibiza album, which was one of the biggest to come out of the white isle this year. Their recent productions have also been second to none, particularly in their collaboration with Harry and Jose on their single 'Boogers', which is fast becoming one of the most compiled tracks this of 2009. Another recent and substantial achievement was their appearance on Ministry of Sounds 'The Annual', which included no less than three MYNC productions. Although still using the traditional 4 decks 2 mixers format the production outfit has progressed somewhat in their short break from the scene, and fans can expect to see an electrifying live show in the very near future, shortly followed by what's set to be an extraordinary artist album planned for release later in 2010.

Harry Choo Choo Romero & Jose Nunez acclaimed partnership as the Constipated Monkeys which formed back in 1997, have produced several percussive, funky tracks including 'Cro-Magnon' and 'Erectus'. They have since released a huge number of singles for labels including Subliminal, Pepper and Jive.

Whether continuing production with Morillo under the Pianoheadz guise, teaming up with Harry 'Choo Choo' Romero to form the Constipated Monkey's, or working with them both as The Dronez, Nunez himself has been at the helm of some powerfully funky, slammin' club hits over the past couple of years.

This compilation is certainly a welcome return to what both artists do best- playing pure unadulterated house music. Both have pulled some exclusives out of the bag for this one including the incredible remix of Faithless 'You're the sun to me', and Anil Chawla's track 'Think about it' on the first CD from MYNC. Disc two doesn't fall short either with Harry and Jose including an exclusive from Maltese rising star Jewel Kid with 'Gabur' and Vision Factory's 'Music Brings You Back'. If you want an uplifting album to get you in the party mood then look no further, as together these two experienced acts will without doubt show you why they've produced house music for so many years, and will continue to do so in years to come.
