The next reissue of Paul Roland after 'A Cabinet of Curiosities'/'Happy Families' will be 'Duel' in Decembre and it is going to be a very special 20th anniversary edition of the album. Paul Roland had expected to make it a straight reissue of the 'improved' Greek release from 2003, but on closer listening he 'heard' several subtle but significant improvements and additions that needed to be made while still retaining the original character of the tracks. These included adding harmony vocals to certain songs ('Knights', 'Spring Heeled Jack', 'At The Edge Of The World') to fill out thin sounding choruses and middle 8's, plus the odd keyboard line to add an ethereal touch to tracks which sounded rather empty on the original release ('Over The Hills') and most notably adding a (subtle) choir to 'Nosferatu' which gives it a more supernatural quality. All the live radio sessions recorded with the band shortly after the release of the 'Duel' album will be included as bonus tracks, but the most unusual addition is the inclusion of a copy of my unpublished novel, 'The Magician of Grimm', which is set in the same medieval fantasy world as the songs and was written just a few years after the album's original release (and originally printed in parts in the PRAS magazine 'A Cabinet of Curiosities'). The book will be a limited edition printing of just 200 copies, 100 of which will be included with the first copies of German edition of the CD on Syborgmusic.
